April 25, 2011

To whom it may concern:

I am writing this letter on behalf of AYD. My company has been doing business with AYD for over 4 years, this includes over one year of doing business with myself as the dispatcher at Wilmot.

AYD has been able to handle some very large jobs for our company including Dominion in Mineral, VA. This was a very intense job due to the amount of security and training each person had to go through that was on the site. Since my start on March of 2010 to the present YTD has handle over 100 jobs for us.

AYD takes pride in their work and will fix anything that is not properly done to Wilmot standards. AYD gives me a peace of mind that can only come with trust. I trust them and know that anytime an issue arises it will be handled with great customer service. AYD also has a close relationship with our Project Management Team as well. They have handled many of the double and triple wide set ups and knockdowns.

As our company continues to grow we will rely on great sub contractors like AYD to grow with us. I would recommend them for any job no matter how big ore how small.

Sincerely,

Chad Hopkins
Dispatch
